

Key Features of MassPay's Payout Orchestration Platform:

MassPay's feature-rich platform offers the tools you need to manage, scale, and optimize your global payment operations:

Instant Payouts: Facilitate real-time payouts to recipients across various payout rails.

Currency Flexibility: Pay in over 70 currencies and leverage our FX tools for seamless cross-border payments.

A New Recurring Revenue Stream: We make instant payouts a reality for your clients' ... and we create a net new recurring revenue stream for you while doing it.

Customizable Workflows: Build unique, automated payout workflows that meet your business needs.

Compliance & Security: Built-in KYC, AML, and fraud prevention tools keep your transactions secure and compliant with international standards.

Reporting & Analytics: Gain insights into your payout operations with detailed reporting, enabling data-driven decision-making.

Scalable Infrastructure: Whether your business handles hundreds or millions of transactions, our platform scales to meet your needs without compromising performance.

API & Webhooks: Seamless integration with your existing systems for real-time payment updates and efficient payout management.

Why MassPay?

For businesses seeking a comprehensive payout orchestration platform, MassPay offers the ideal combination of global reach, speed, flexibility, and security. Our platform empowers companies to automate, streamline, and scale their payout operations across a diverse range of industries, ensuring that recipients receive their funds quickly and through their preferred methods—anywhere in the world.

Experience the MassPay Difference:

Empower your business with instant payouts, integrated compliance tools, and a global payment network that spans over 238 countries and 70 currencies.
